**OK**- compatible

**No**- not compatible

**NT** - will not be tested

**TBA** - to be announced

**TBC** - to be confirmed

**Limited** - Nikon Scan 1.6.3 has following problems on Mac9.0.4.

- You can not save scanned image in jpeg format in Nikon Control.

- If you try to open the image which was saved after the continuous scanning on the scanner other than LS-4500, you can not open it with a message "this file has been open already." But if you restart Nikon Control, you can open it.

\*1 - Tested on LS-1000/Coolsan II/LS-4500AF. Not tested on AX-110 and AX-210.

\*2 - LS-30/LS-2000 only. Tested on ASPI files for Windows NT4.0 only. Adaptec do not support Windows 2000 with this ASPI file therefore Nikon cannot offer support for users who experience issues with ASPI on Windows 2000.
